Attempt : 1
Total Mark : 10
Marks Obtained : 10

Section 1 : Coding

1. Problem statement

Manoj, a developer at MoneyMatters Inc., is working on improving the company's financial system. He needs to create a program that takes an integer input, converts it into a double, and displays both the original integer and the converted double value.

Input Format

The input consists of a single integer representing a monetary amount.

Output Format

The first line of the output displays the "Original Integer: ", followed by an integer representation of the input value.

The second line displays the "Converted Double: ", followed by a double value representing the input as a decimal value.

Refer to the sample output for the formatting specifications.

Sample Test Case

Input: 20

Output: Original Integer: 20

Converted Double: 20.0

Answer

// You are using Java

```
import java.util.Scanner;
```

```
public class Main{  
    public static void main(String arg[]){  
        Scanner num = new Scanner(System.in);  
        int num1 = num.nextInt();  
        System.out.println("Original Integer: "+num1);  
        double num2 = num1;  
        System.out.print("Converted Double:"+num2);  
    }  
}
```

Status : Correct
